MUSTAFA PINJARI

PROFILE

I possess over 4 years of expertise in HTML and CSS, with a focus on web development. Additionally, I am skilled in program debugging and AI tools, proficient in resolving complex issues and utilizing AI to optimize processes. Seeking a software engineer role with Java expertise, I approach technology holistically to deliver transformative value in innovative projects.

HOBBIES

- Debugging
- Using Ai Tools

LANGUAGES KNOWN

- English
- Hindi
- Marathi

EDUCATION

2022   SSC **– 66.70 %**
        Maharashtra State Board

2025 BCA – 8.5 C.G.P.A
        SANDIP UNIVERSITY

ROLE AND RESPONSIBILITIES

Debugging and Issue Resolution: Identify and troubleshoot software bugs and performance issues, employing debugging tools and techniques to ensure smooth functionality and optimal performance.

AI Integration: Leverage AI technologies to enhance software functionalities, automate processes, and improve overall system efficiency, contributing to innovative and cutting-edge solutions.

Code Review and Quality Assurance: Conduct thorough code reviews, perform unit testing, and implement quality assurance measures to maintain code integrity, reliability, and adherence to coding standards.

Collaboration and Teamwork: Collaborate effectively with cross-functional teams including developers, designers, and project managers, contributing ideas and expertise to drive successful project outcomes.

Continuous Learning and Innovation: Stay updated with the latest trends and advancements in software development, continuously learning new technologies and methodologies to drive innovation and deliver impactful solutions.

PROJECT HANDLED

C Language: Program Menu

Python: Jarvis Ai Assistant

HTML CSS: Emit, Zoha pearls and many more
